HARRY LANGDON in

"The Strong Man"

With a snap of his fingers he breaks the iron bands that hold back Kid Joy from rocking Old Man Gloom to sleep. He's so strong he can raise a ton of titties in one hand and a load of laughs in the other.

Whatta Boy! Whatta Boy!

Sampson, Hercules, Atlas and Sandow—just saplings compared to our strong man—he's a Titan of titties—the giant of giggle getters—the nation's strongest gloom buster.

Also Chapter 6 "The Collegians" and Paramount News.

Village Assessment Is Under Way

Mr. E. F. May, of Calgary, has been busy during the week assessing Village property. Mr. May comes very highly recommended for the work he has in hand. For the first time this year improvements will be taxed for Village purposes and it is intended to start out with an assessment as nearly perfect as possible, consequently an outside man has been chosen for the job on the recommendation of the municipal authorities.

Hear Report On Boys' Parliament

The church was well filled on Sunday night. Harold Stephenson was the speaker for the evening and gave a report of the proceedings of the Boy's Parliament, which met in Calgary. He said they had thirty-five meetings during the session of the Boy's Parliament, which was not a mock parliament as many people suppose and the legislation was on "Boy Life." The sessions were not dominated by adults as might be supposed and Harold asked those who thought they were to come to the House and see. It is eight years since this Boy's Parliament was established and each session has been held in the Capital until this year when it was held in the City Hall, Calgary. The music was appropriate and enjoyed by all.

Automobile Licenses Increase in 1927

An increase of 8,201 in the number of automobile licenses issued by provincial government license officers throughout the province during the year 1927 is announced by the provincial secretary's Department. During 1927 no less than 72,330 motor cars and truck licenses were issued as compared with 64,129 issued in 1926.

Building permits numbering 952 and authorizing the erection of buildings at a total cost of \$2,330,181 were issued in Calgary during 1927 showing an increase of \$341,283, over the figures for 1926 according to a recently issued statement. The 1927 figures showed that 288 new houses at a total value of \$1,230,141 were placed in construction or built. The number of new business buildings and blocks totalled 57 and aggregated a value of \$810,470.

He was booked for small time vaudeville, but he broke into a big time love affair—he was strong in the heart but weak in the knees—instead of practicing bending iron bars on his head, he rehearsed twining pink arms around his neck. See Harry Langdon in "The Strong Man."

Live stock is benefitting vastly from the change in the weather. The feed in the fields is now becoming available, sufficient snow having been melted to uncover a considerable portion of this, and also permit the animals to walk around to get it.

The party who borrowed a blow torch from Moffatt's Hardware is requested to return same at their earliest convenience.

O. E. S. Officers Installed

At the regular meeting of the O. E. S. on Monday evening the following officers were installed for 1927:

W. M. Sister Vera Harper
W. P. Bro. H. E. Gill
A. M. Sister Rachel Taylor
Cond. Sister Alma Hagg
A. Cond. Sister Annie Hagerman
Sec'y Sister Blanche Depue
Treas. Sister Mary Woodhull
Chap. Sister Marquette Manhard
Marshal Sister Mary McLeod
Organist Sister Annie Clements
Adah Sister Laura McLean
Ruth Sister Merle McIntyre
Exhorter Sister Mella Jopling
Martha Sister Lily Bell
Elector Sister Gwalia Collins
Warder Sister Minnie Blachly
Sentinel Bro. W. C. Hoskins

School District Annual Meeting

The annual meeting of the ratepayers of Champion Consolidated School will be held in the schoolhouse on Saturday, January 13th, at two o'clock in the afternoon.

Attractive Display At Seed Fair

An interesting feature in connection with the provincial seed fair which is to be held in Calgary from January 16 to 20, will be an exhibit of the agricultural products and other resources of the province displayed by the publicity branch of the department of agriculture. This includes grain, grasses, game, coal, oil, tar sands and other products and pictures illustrating many branches of agriculture life in Alberta. This exhibit, as well as the many choice samples of grain to be shown at the fair is expected to attract a large number of those who will be in attendance at the U.F.A. convention to be held during the same week.

The concrete wall of the basement of Fred Clever's residence collapsed on Sunday falling into the cellar, which immediately filled with water? The work of repairing the damage is now in progress. Accumulated water, held against the wall by snowbanks is credited with being the cause of the wall falling.

So rapidly was the snow melted by the chinook of the past few days that small lakes were formed in every direction, as the culverts and other means of drainage were blocked with ice and snow. Prompt measures in opening up the outlets prevented a miniature flood.

Long Louis has just completed the erection of a new ice house in connection with his restaurant. The new building is a commodious affair and should solve any problem connected with an insured supply of ice for the season. L. W. Boden had charge of the construction.

Rink activities ceased with the prevalence of the chinook and by present appearances it will be some little time before they will be available again, unless there is a sudden and complete change in the weather.

The rapid thaw has improved conditions for stock in the fields to a considerable extent, particularly for horses. The animals can now get around with ease and much feed was uncovered.

NOTES AND COMMENT.

This year, for the first time, improvements will enter into the Village assessment and levy. The value of the land only has always been found to be a temporary expedient as a basis of taxation, satisfactory in smaller places for a period, perhaps, but when untried to larger corporations. To maintain even a small village by the land basis system of taxation is an absolutely fictitious value was necessary in order to produce the necessary revenue and in time could not fail to leave vacant property largely in the hands of the corporation. In addition the business section of the community which naturally demanded reasonable improvements to streets and sidewalks escaped almost entirely from the taxes necessarily imposed for such improvements. Undoubtedly the change will at first arouse more or less criticism but in the end will almost certainly be recognized as a step forward.

Saskatchewan is making arrangements with the Dominion government whereby the R.N.W.M.P. will take over the policing of that province thus eliminating conflicting activities of the provincial police and the old police force. The change would leave things as they were in 1917 when wholesale enlistments on the part of the mounted police led to the formation of the provincial force. It is understood negotiations are under way for the adoption of a similar plan in Alberta, as the saving possible under such an arrangement would be a very considerable one.

The Chronicle has been called to account for the statement that unusual complaints about grades and grading of wheat are confined almost exclusively to years when low grades of grain prevail and in consequence should be taken with allowance.

In the only statement made in reference to wheat grading the opinion was expressed that that existing grades might not be satisfactory for commercial purposes and, in that instance should be amended. No. 1 Hard was the standard grade for a number of years, but the wheat grown as the land continued to be farmed deteriorated in quality and No. 1 Northern became the standard grade. That the process of deterioration is continuing is quite possible and a lower standard yet may be advisable. Doubtless any general movement for this change would be acted upon.

The most disquieting thing that has occurred in connection with wheat grading this year is the statement made by the Alberta Prov. that in some 1,800 reports some 600 resulted in the grade of cars being raised, while only six cars were lowered. While this year's crop provides unusual difficulties for the graders, such a proportion of lowered grades is altogether too extensive to be passed over without comment even when it is known that the appeals were naturally made where the owners felt they had sufficient grounds.

The principal reason for taking complaints of robbery and crookedness in regard to grain grading with more or less allowance is the fact that there is no agreement among those making the complaints as to the source of the trouble. One farmer

bases his assumption of crookedness on the fact that local buyers graded his grain higher than the official grader. Another has no use for the local buyers. At Lethbridge a member of the grain standards board accused foreign and Canadian millers of controlling the grades. It is very noticeable that Pool officials avoid any inference of crookedness in the government grading, and there can be but little doubt they are in a position to be aware of any inclination to queer grades.

That dissatisfaction extends to all parts of the country is quite evident, but at the same time it must be admitted that there is no suggestion of a remedy that appeals to any considerable number. While there is little doubt that to accuse everyone or anyone connected with the grain trade or its handling will not improve the situation. To achieve anything in the way of helping matters requires cohesion among the farmers in regard to complaints and also development of lines of a rational character. It is only a short time since a set of municipal scales was installed here to permit the checking of elevator weights, which were loudly condemned. Scarcely a load of what has been weighed on these scales since their installation.

GENERAL NEWS

Premier Brownlee and Hon. V. W. Smith, Minister of Railways, left on Friday for Montreal where they will confer with Sir Henry Thornton and E. W. Beatty, Presidents respectively of the Canadian National and Canadian Pacific Railways, in connection with the possible sale of the railways owned by the Alberta government. Following a discussion of the Alberta railway activities with the heads of the two transcontinental lines, the Premier has arranged a conference at Ottawa where the natural resources and other problems affecting this province will be discussed. In the meantime, preparations are going ahead for the opening of the Legislature at Edmonton on February 2nd.

More than \$500,000 worth of Alberta cattle were exported to the United States between July 1st and November 30th, 1927, according to the report of S. C. Reat, American Consul at Calgary. The shipments include some 12,000 head comprising stockers, feeders and butcher cattle. According to Mr. Reat, the American markets at the present time are very inviting to stockmen in western Canada and shipments have shown greater activity during the past six months than in any similar period since the imposition of the Fordney-McCumber tariff in 1922.

The annual meetings of the Alberta Provincial horse, cattle, sheep and swine breeders' association will be held in Edmonton, on January 11 and 12. The cattle breeders' association will meet on January 11, at 10 a.m., and the sheep breeders on the same day at 2 p.m., while the meetings of the horse breeders will be held the following day at the corresponding hours.

Automobile traffic over the Banff highway between Banff and Calgary, both ways, in 1927 up to November 30th, totalled 51,406 automobiles according to the figures made public at the park. The figures show that west-bound Canadian cars totalled 24,819 and west-bound American cars 1,635 while east-bound Canadian cars totalled 23,652 and American 1,466. While no complete check of passengers, both ways, has been kept it is estimated that the total was approximately 181,700.

Then and Now

In 1920
this Chevrolet 2-door Sedan Cost \$1795.00

COMPARE the Chevrolet of seven years ago with the Chevrolet of today and realize how radically Chevrolet has revised all conceptions of motor car value.

In 1927
this Chevrolet 2-door Sedan (Coach) Cost \$750.00

In 1920, the Chevrolet illustrated here represented the highest standards of quality and value . . . at a price of \$1795 (i.o.b. Oshawa) . . . over a thousand dollars more than you pay today for a Chevrolet that possesses style, luxury and refinement unthought-of in any car a few years ago.

In following its fundamental policy of constant improvement, Chevrolet has built up a production volume which places it first among all cars in the world. And Chevrolet has shared the savings of volume purchasing and production, with the public by reducing the prices of Chevrolet cars.

So, today, you get a Chevrolet with amazing QUALITY in its every detail at a fraction of the cost of a similar model Chevrolet of seven years ago.

Did Your New Year's Resolutions Include One that You Would Pay your Subscription to The Champion Chronicle?

We have suspected for some time that the majority of our readers were waiting for a really auspicious occasion to clean up the mass of arrears on our books, and with the opening of the year it was plain a number had chosen the first days of 1928 as the appointed time.

Why Not Everyone ?

One year's subscription is a small amount, but several hundred subscriptions in arrears aggregates an amount that would mean life or death to many a business.

In clean, bright Aluminum

Canada In 1927

We are now well launched into the new year of 1928, and it is possible to examine the completed story of Canada's progress and development in the year just ended.

It is the universally expressed opinion that the year which witnessed the Dominion's discovery of oil was one of the best years in Canada's history. It was a year unmarked by any great national disasters or epidemics; it was a year of fairly general prosperity; it was a year of national growth and development along in its making for national unity and a better conception of Canada's future possibilities.

The Dominion is more highly regarded by our own people, and has attained to a higher place in the eyes of the whole world. The new status awarded the Dominion within the Empire has been productive of a great national pride and confidence which finds expression in a still greater determination to build stronger and later in the years to come. Not least among the factors adding to Canada's international position, the election of Mr. Bennett to a seat on the Council of the League of Nations and the appointment of a Canadian Minister at Washington, and an American Minister in Ottawa.

Western Canada has justly claim credit for many of the things which have resulted in the improved position of the country as a whole. During the past five years it is conservatively estimated that the farmers of Western Canada have sold farm produce to a value of \$2,000,000,000 at points and with the return of prosperity to the West, there has been a vast improvement in business everywhere. In a New Year's message, Sir Henry Dufferin declared that the gain of the year must be largely credited to agriculture and the extension of Canada's mining, pulp, and paper industries. Western people have long continued that a successful and prosperous agriculture meant prosperity for all. The past year has demonstrated this.

One of the most noteworthy developments of the year has been the rapid increase of wealth produced from the mineral resources of the Dominion. Practically every province has experienced important developments in this respect, and no country in the world is now attracting quite so much interest, or inviting larger investments in this line of activity. It is a fact that the discovery of oil in Alberta is opening up a new era in mining, and one which gives promise of adding enormously to the wealth of its people and providing employment for tens of thousands of workmen, not alone in mining itself but in all the allied industries and businesses, including transportation, which active mining operations bring about.

The trade and commerce of Canada has continued at a high level, with the Dominion occupying a position in the front rank of nations, and with a per capita trade higher than any country except New Zealand.

In the world of finance, Canada has been blessed with cheaper money for productive purposes than any country, except the United States. Taxation has been reduced, revenues have expanded, and surpluses in Government accounts have taken the place of former deficits. Canada's ability to pay off over \$50,000,000 of its national debt out of current income in 1927, is significant of the great change which has taken place in the last year.

Western cities report a year of great building activity, a largely increased volume of bank clearings, growth in population, prompt payment of taxes, profitable operation of public utilities, and good business in almost every branch of commercial activity. Towns and rural municipalities present the same favorable report, an ever increasing number of the latter having replaced their entire debt and indebtedness and otherwise decreased their liabilities and increased their assets.

Thus the old year drew to a close, contentment and prosperity prevailing throughout the Dominion, with a new confidence and courage manifesting itself throughout the Maritime Provinces, with activity general in the central Canadian Provinces, and with optimism prevailing in the West, carrying with it organized efforts to steadily advance its agricultural interests and development, and with entirely new opportunities on a large scale developing in the north Canadian can and are facing the new year with pride and confidence.

Children Arrested For Murder

Nine Hanged Homeless Waifs In Russia Implicated In Slaying Of Italian Vice-Consul

Nine hanged homeless children have been arrested by police in Riga in connection with the murder of the next Italian vice-consul, Kozko, who was beaten to death with stones and rebbed by children on a dirty corner-park of the Daily Mail.

Kozko's body was found December 27. He had been visiting a niece the night of the killing. At the time it was believed that bandits had killed and robbed him and children were not suspected. Even the police filling in his body had been contacted by the robbers.

According to the Riga correspondence of the Daily Mail, which reports, is not substantiated elsewhere, boys and girls between the ages of 12 and 15.

If You Need A Tonic Get The Best!

Getish, Ont.—There is nothing better as a building tonic than Dr. Williams' Pink Pills for Pale People.

Golden Medical Dispensary, when I was wounded, suffered from weakness, ill health, and impaired blood. I took Dr. Williams' Pink Pills, and in a few days I was able to get on my feet. I built me up in health, and made me feel like a new person. I also found it splendid to take following motherhood to give me strength. I always recommend Dr. Williams' Pink Pills to those whom I find ailing for I know them to be just as advertised. Mrs. W. H. Skyring, 52 Nottingham St.

Write Dr. Pierce's Invalid Hotel in Buffalo, N. Y., for free advice.

Find Long Missing Seal

Was Originally Attached To Charter Of William The Conqueror

A seal originally attached to the charter of William the Conqueror, which always was supposed to have been lost beyond hope of recovery, has been found at the Guildhall, London.

Among an odd and miscellaneous collection of articles a red wax seal was discovered, containing a piece of wax which when placed together with the seal of British Museum experts proved to be the genuine of the long missing seal.

TO THE MOTHERS

OF ALL PALE GIRLS

If Your Daughter Shows Signs Of Anaemia A Tonic Is Needed

Anaemia is simply a lack of blood. It is one of the most common ailments at the same time most dangerous troubles from which growing girls suffer. It is common because of its tendency to grow slowly and imperceptibly, often overlooked and overstated. It is dangerous because of the weakness of its approach and because of its tendency to grow slowly and imperceptibly. Every growing girl should occasionally take a tonic to ward off this insidious trouble, is because of their powerful action in rebuilding the blood that Dr. Williams' Pink Pills for Pale People have made a world-wide reputation. The case of Miss Clara Child, of Pine Creek, Alta., amply proves the value of this medicine. Miss Sullivan says: "During my school days I suffered a great deal from this and watery blood. I was continually weak and tired; my appetite was poor, my sleep unrefreshing and I troubled with headaches. To make matters worse, I was attacked with acute appendicitis and the operation left me in a very weakened state. My mother, learning of the value of Dr. Williams' Pink Pills, had me take them and after using them for some time I can say the result was simply wonderful, as they completely restored my health, and now when opportunity occurs I always recommend these pills to my girls, pale girls suffering as I did."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Underground Railway In Tokyo

The first underground railway in the Far East opened Tokyo to the public. Running one and one-half miles underground, it is constructed on the pattern of the New York subway system and is said to be proof against earthquakes. It connects the railway terminus at Giza with the Asakusa pleasure quarters.

Pigeons Were Wise

Wary Birds Feast On Grain But Spurn Trap

The first day of London's municipal offensive against the pigeons inhabiting the neighborhood of St. Paul's Cathedral ended in an unequalled victory for the pigeon.

Some time it was decided to thin out these birds and a contract was awarded to William Dalton, famous rat catcher. For three weeks Dalton and his assistants have been feeding the pigeons in order to become familiar with them. Recently they appeared with a large cage of wire setting and a plentiful supply of grain. The pigeons ate up all the grain contained about St. Paul's portico, but not a single bird entered the cage. Dalton, finally decided that the cockney pigeons are wise birds, retired to think up a new strategy.

If a woman is jealous of her husband it usually keeps her so busy that she hasn't much time for anything else.

The only bird catches the worm. If a man's father-in-law doesn't beat him to it.

Clangor is soon to have its first ice trials in 10 years.

The King of Pain—Minar's Liniment

Specialize On Quality

Switzerland Finds Ready Market For Cleverly Constructed Devices

Switzerland hasn't coal, copper or oil, and its iron deposits are not available. It has to go away from home for wood, cotton and foodstuffs, but it converts the raw material it buys into so many clever and ingenious contrived devices that it never has any trouble to find ready markets. Swiss watches, embroidery, silk, carvings, music boxes, and milk chocolates are known the world over.

The Swiss have harnessed the rivers that tumble from their mountains and have cheaper electricity and make more use of it than can be boasted of their neighbors. Through all the typhoid times resulting from the Great War, they kept their currency at par and sometimes at premium. Their standard of living is above the average and as good as any, and their school system is world renowned.

All of which seems to demonstrate that good sense and a peaceful disposition are worth more than wide territory and natural resources to a people.

Every careful and observant mother knows what her child suffers from worms. She also knows that if some remedy is not speedily applied much harm will result to the child. An excellent preparation for this purpose is Miller's Worm Powders. They drive worms from the system and set up stimulating and soothing effects so that the child's progress thereafter is painless and satisfying.

Time To Advocate Peace

After every great war there is a period of almost complete apathy, when the nations are too crippled and too weary to fight again. During that period—and we are living in such a period now—every rational expectation in building up a new machinery of peace ought to be tried. If the experiments fail and new generations arise not averse from war, then it will clearly be necessary for the nation to defend itself on the old terms and in the old way.

Powerful Medicine. The healing properties in six essential oils are found in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many call it that they owe their health to it. Its wonderful power is not expressed in the price at which it sells.

Today Canada's exports of newsprint paper rank second value being first.

Betty: You only met me an hour ago, and now you want to kiss me! Paul: Well, I'm sorry I wasted so much time!

For free trial use Minar's Liniment.

Wise is the man who is attentive to what is going on in his own house, but blind to what occurs in the house of his neighbor.

Treat Colds 2 Ways

With One Treatment RUBBED ON throat and chest, Vicks VapoRub does two things at once:

(1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and (2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

VICKS VAPORUB
OVER 25 MILLION JARS USED YEARLY

Britisher Won Out

Had Race With America For Complete Collection Of Famous Prints

As a result of the Franco-British race between an American and an Englishman, neither of whose names has so far been disclosed, a complete collection of famous prints, illustrating the street cries of London, is now on exhibition at the Acland Galleries here for the first time in over a century.

The Englishman won by a few hours and the collection, valued at \$25,000 (about \$185,000), will remain in that country. Even the British Museum contains only thirteen of these rare prints.

Excellent For Croupy Children.

When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm which usually collects in the little sufferer. It is equally reliable for sore throat and chest, croup, rheumatic pain, colic, whooping and croup. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

An Excellent Name

The founder of Medicine has a deal and a morning contemporary expresses the hope that he was not responsible for the name of the place. But it is not an excellent name for a town. The names of the persons of the world know the name of last town even if they forget the names of all others in the west. It is striking, unusual, different, and we hope Medicine that will always stick to its name. Until its population passes the million mark.

Minar's Liniment for sore throat.

Who else never hear of women's shoulders aching or running off with their employer's money?

He: Not often, but when it does happen they take the money, too.

Regular motor car postal service in Finnish Lapland has been made possible by the use of a continuous tread tractor drive in winter time.

Demand

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it's not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin; it does not affect the heart

Aspirin is the trade mark registered in Canada. Infection by Bayer Manufacturing, U.S.A. It will never be sold in Canada without the Bayer cross trademark.

Do not take "Aspirin" in alcohol with lead "Bayer" cross trademark.

One school child out of every five in the United States is underweight.

Has Already Netted Million

British Convict Ship On Exhibition In U.S. Still Draws Crowds

More than \$1,000,000 has been made from the old British convict ship Suez, which was on exhibition in New York in 1921 and 1923, and since then has been on the American waterfront and rivers. Captain David Smith, owner of the vessel, said when he sailed for England in the White Star liner Coleridge, that his property would probably be kept in the West, carried, with other valuable property, to the May Foundation, Rochester, Minn.

No man of woman should hobble painfully about because of corns when a certain relief is at hand as Holman's Corn Remover.

A palmaria magnet, for lifting masses of iron and steel plate from wreckage, has been designed in England.

One school child out of every five in the United States is underweight.

Finds Cause Of Disease

Discovery of the bacteria which is believed to cause "moon blindness" in horses, and which results in the death of many valuable horses, is announced by Dr. Howard C. Brown, of the Mayo Foundation, Rochester, Minn.

One school child out of every five in the United States is underweight.

DOMINION HAS ADVANTAGE ON FREIGHT RATES

Washington.—Farm relief came up for its first round of consideration this morning in the Senate amid an atmosphere apparently as bitter as of old.

While Senators Bruce, Democrat, Maryland, and McCallister became entangled in a spirited row over farm relief, Senator Arthur Capper, Republican, Kansas, leader of the erstwhile Senate farm bloc, put forward a resolution proposing a reduction of freight rates on grain and grain products exported from this country in an effort to equalize the position of United States farmers with Canadian competition.

Declaring Canadian wheat enjoys a percentage of eight to ten cents a bushel in lower transportation charges, Senator Capper held this was a serious menace to American farmers and he called for a thorough investigation by the interstate commerce commission of export grain rates. "The commission would be directed to adjust rates to a basis that will permit grain and grain products produced in the United States to move to foreign markets on a basis equal to the position of Canadian wheat."

According to Senator Capper, the regulation has the approval of various farm organizations of the United States.

"Unless wheat and wheat products of the United States can compete on fairly equal terms in world markets with wheat from Canada, we shall have on our hands a surplus of grain which will ultimately work to our disadvantage by depressing the domestic price of wheat and again bring ruin to the grain growers of the middle west," Senator Capper said.

Air Pilot Killed At The Pas

Capt. Stevenson Meets Death When Engine Stalls

The Pas, Man.—A military aviator after he commenced a trial test flight of his aeroplane over The Pas, the engine stalled and the plane "nose-dived" to earth, bringing instant death to Captain P. J. Stevenson, pilot, formerly of Winnipeg and Toronto.

The plane crashed in the centre of a street, a twisted mass of wood and metal wreckage. While 300 feet in the air, the engine stopped dead. According to several observers, the plane immediately turned nose down and crashed to the earth with terrific force. Captain Stevenson was ejected from the wreckage.

Captain Stevenson, who was pilot for the Western Canada Airways Limited company which maintains the aeroplane service between Winnipeg and the northern mineral districts, was alone and testing the plane following the installation of new motor parts.

Another Gold Shipment

Canada Has Sent a Further \$5,000,000 To United States

New York.—The gold movement from Canada back to New York, which amounted to \$2,000,000 in December owing to the discount on the Canadian dollar in the New York foreign exchange market, has been increased to \$10,000,000 with another shipment of \$5,000,000, consigned to the Canadian Trust of Commerce in New York.

The net loss of gold to the United States during 1927 is placed at \$151,000,000 by the Federal Reserve Bank of New York in its monthly review of credit and business conditions.

Find Plane Wing in Sea

Charlottetown, P.E.I.—A piece of wreckage, said to be part of an aeroplane wing, has been found at Miramichi Harbor, about seven miles from Piquish, on the Northeast coast of the island. The piece found was seven feet long, in five sections, fastened by copper screws. There were over a dozen numbers on the wreckage.

Sight Bodegas Below Bonanza

Montevideo, Uruguay.—Although it is rumored below the equator, the German steamship, Altair, sighted bodegas near the mouth of the Rio de La Plata, the ship reported by radio. Experts attribute the unaccountable cold weather in that region to the presence of these sub-arctic formations which have been sighted.

Children Rescued

Wittenhausen, Germany.—Seven children adrift on an ice-bow, were rescued by a naval vessel after being lost four hours.

W. N. U. 1745

Curb Money Lenders

Cannot Solicit Customers in Britain Through the Mail

London.—The Money Lenders' Act, which became effective January 1, forbids money lenders from soliciting customers through the mail, but they are still permitted to advertise in newspapers. The end of 1927 witnesses the grand effort by the money lending fraternity to get circulators out through the mail before the new law came into force, and they were planning in their appeals to the recipients of the circulars to "keep for reference," with the suggestion to do so in view of "eventualities which may arise in your personal financial commitments."

Deprived of the use of the mail, many money lenders are now attempting to widen their publicity in the newspaper field. With a few striking exceptions, however, prominent newspapers all along have refused to insert such advertisements and they declare they will rigidly maintain this attitude.

Fin Flon Development

Hudson Bay Mining and Smelting Company To Commence

Winnipeg.—Preparations are active under way for the commencement of the Hudson Bay Mining and Smelting Company's development of the Fin Flon mine. Plans for the mill and smelter are being prepared and also for the town site which is situated on the lake, about two miles away from the plant.

The Hudson Bay Mining and Smelting Company is the name chosen for the company which will operate the mine.

The company will, it is learned, in all probability operate under a Dominion charter, but there are several details yet to be settled. R. E. Kenna, general manager of the company, which has been in San Francisco for some time past, is expected to arrive in Winnipeg this month and will establish his headquarters here.

Propose "No War" Treaty

Negotiations Between France and United States

Washington.—France has been asked by the United States to share with the United States a mission to settle all principal national problems by a "no war" treaty. The proposal is an instrument of national policy. The proposals for French leadership spring from the suggestion of President Minors for a Franco-American treaty outlawing war. It is put forward by Secretary Kellogg as an opportunity for a "more significant contribution to world peace by signing in an effort to obtain the signature of all the principal powers of the world" in a renunciation of war.

Reimbursed His Clients

One Who Lost By His Advice Remembered in Lawyer's Will

San Francisco, Calif.—The late profession found in the will of the late Calvin McVab, noted California lawyer, a precedent and a heritage. He left money to reimburse clients who lost by his advice.

The will, filed in the probate court here, disposes of an estate valued at between \$600,000 and \$800,000 earned in fees since McVab left his place as a hotel clerk and decided to study law.

Of this amount \$40,000 was returned to two clients who paid McVab for advice as to investments upon which they lost.

Would Stage Bull Fight

Spanish Matador Anxious To Show British What Sport Is Like

London.—Antonio Marquer, famous Spanish matador who is spending his honeymoon in London, made a statement "painless bull fight" here.

The Spanish matador, who hopes to demonstrate to the English public that bull fighting is not cruel, is negotiating with a famous amateur promoter to stage the fight in London in order to exhibit the matador's extreme speed, agility and daring to the sport-loving British.

Rich Platinum Area Found

London.—The Colonial Office announces the discovery of a platinum-bearing area of about 100 square miles in the Kona, British West Africa. The deposits are alluvial and are considered important.

A Family Affair

Alliance, Neb.—After his four daughters had married four brothers, including Stanley, 78, and his wife, Mrs. Sarah E. Oederick, 59, mother of the quartet of brothers.

Bandits Make Haul

Armed Robbers Secure \$3,500 From Storekeeper At Beach

Weyburn.—Armed American bandits, and at this point of a gun battle made a haul on the haulier of secured some \$3,500 from John Kenna, storekeeper. Kenna was called from his bed by two men who declared they were in urgent need of medicine and he accompanied them to his store, where they produced revolvers, and compelled the man to open the safe which contained money belonging to the Saskatchewan Pool Elevator Company, the International Elevator Company, the Post Office Department and Kenna himself. After raking every niche out of the strong box, the bandits bound Kenna hand and foot and gagged him before they made their getaway.

Bandits are a new town on the Lake Alima branch of the C.P.R. and remote from communication with police and other centres. The town is located between Lake Alima and Lac Seul, fifty miles north of Weyburn, 80 miles southeast of Regina, fifty miles west of Estevan, all distances as the crow flies. It is ten miles north of the international boundary and twenty miles north of Weyburn. Most, a notorious hangout for yeggs and gunners.

Bandits are also 20 miles from Bromhead, Sask., a former detachment of the Saskatchewan Provincial Police which was disbanded in the spring, when the force was reduced.

BRITAIN WOULD FURTHER PLANT OUTLAW WAR

London.—The British Foreign Office has indicated that it would give most favorable attention to any proposals for outlawing war. In some form, reports appearing in the London press this month are said to have been forwarded to the British Government are being considered.

The London press has been making remarks that it would be difficult to comment on a treaty which was so seriously reported in the press.

The Nicaraguan situation receives much more space in the London evening papers than the proposed treaty. "While the United States is inviting France to join in proposing to the world a treaty renouncing war as an international policy," says The Evening Standard, "this is involved in a campaign in Nicaragua."

The Standard explains this contrast between precept and practice has been brought about by General Sandoz, the rebel leader.

The French news item says the Nicaraguan situation is against an inch paragraph to the proposed treaty. Commenting editorially, The Westminster Gazette calls the French proposal "a prelude to France for a multilateral treaty 'a shrewd stroke.' It is unable to see, however, how this would advance the cause of settlement of international disputes.

Governor General Inspects Namesake

His Excellency Lord Willington, hearing that an internationally famous Clydesdale stallion "Lord Willington" was a feature of the address being shown recently at the Ottawa Winter Fair, decided to inspect the namesake. His Excellency is shown in the above photograph standing at the left beside the stallion. At the right is Mr. J. McCallum, of Brantford, Ontario, and Regina, Sask., who purchased the stallion in Scotland for \$10,000, and brought him to Canada in October. This two-year-old stallion has made

CONSERVATIVE LEADER

Col. R. B. Bennett, Conservative Leader, photographed on his return to Canada from his recent visit to England.

Canada Makes Own Program

Will Not Darry Construction Of Two New Destroyers

Ottawa.—It was stated at the Department of National Defence that it is the intention to have the two new destroyers for Canada built exclusively in this country, and not allowing a certain period for receiving tenders.

The construction of the two boats will take about three years. This statement was made in answer to some comments by the London press, which, among other things, applied to the length of time to which construction of the vessels will take. By constructing the vessels here after the other financial obligation will be spread over a period of three years.

"We made our own program," was the comment at the department on the criticisms of the London paper, when read to one of the officials. It was pointed out that the London press is in error in saying that the Patriotic and Patriotic are cutters. They are destroyers and will be completely replaced by other destroyers of a more modern type.

Miner Killed In Snowslide

Body Of Kootenay Man Covered By Tons Of Snow

Kelowna.—Senna Wettersham, 45-year-old mining man of the Kootenay district, was killed in a snowslide at the Mammoth mine, near Silverton. The body probably will not be recovered before spring as tons of snow covers it.

Wettersham, who was foreman and in charge of the Kootenay mine, was in the World War with the 22nd Kootenay Battalion.

Former Minister Take Back Winnipeg.—Premier Bracken, of Manitoba, who suffered a slight attack of apoplexy a few days ago, has been ordered by his physicians to take a complete rest from his official duties. The premier has been ordered by his physicians to take a complete rest from his official duties. The premier has been ordered by his physicians to take a complete rest from his official duties.

Women and the Senate

Stated That Matter Will Come Before Supreme Court Of Canada

Toronto.—According to word received here, Hon. N. W. Howell, I.C.C. Toronto, at the request of the petitioners, had been appointed by the Department of Justice, at Ottawa, to argue before the Supreme Court of Canada the eligibility of women for appointment to the Senate of the Dominion. The question hinges on whether a woman is a "person" with the meaning of the British North America Act.

Judge Emily Murphy, one of the petitioners, has been Toronto for her home in Edmonton. Her co-petitioners are Hon. Irene Parry, member of the Alberta cabinet, and Miss Henrietta Edwards, of Montreal, Alberta. Mrs. Nellie L. McChung, and Mrs. McKimley, former members of the Alberta legislature.

Mountain Climber Lost

Los Angeles Has Been Attempting To Scale Mount Whitney

Los Angeles, Calif.—The wind whirled about the peak of Mount Whitney, highest in the country, smothered out the tracks of Robert A. Evans, a mountain climber, who was missing since he set out to scale the highest of the Sierras.

A pre-arranged plan of reporting his progress by means of signal flares failed.

Signals flashed from the warm slope of the Eastern foot of the mountain brought no reply.

He had planned to be on the summit to hail the New Year. He had four days' food supply.

Pardon Was Impossible

Former Coastal Officer Was Vassal For His Crimes

Kramersburg, Illinois.—Vassal Ahlshof, a former Coastal officer, was condemned to death after a trial of the defendant's crimes to which more than 400 deaths during the civil war of 1919 were attributed.

Ahlshof was described by the judge as a man of no honor and the living to pieces of others. They recounted how his victims were thrown under the ice and numerous deaths were whippings.

In pronouncing sentence, the court held that amnesty for the former officer was impossible.

No Announcement Made

Ottawa.—No announcement was forthcoming from the prime minister following the cabinet council here. Asked if the cabinet had been considering appointments to fill the four senatorial vacancies, Mr. Mackenzie King replied in the negative.

MODIFICATIONS IN NEW LIQUOR BILL FOR MANITOBA

Winnipeg.—A number of modifications in the Manitoba Government's draft bill on liquor legislation were announced by Hon. W. J. Major, attorney-general. The proposed changes will eliminate certain objectionable clauses which raised a storm of criticism when the draft bill was announced.

Permission is to be given brewers to deliver beer direct to permit holders, but to ensure full compliance with the existing laws, authorized inspectors will be assigned to every brewery operating in the province who will supervise all orders received.

The government also has decided to waive the regulation which provides for the production of permits at the time an order is placed.

The bar against brewerily encouraged hotels is also to be removed. The inclusion of this clause of the bill will enable hotels in which brewers are financially interested to operate beer parlors.

The original draft of the bill prohibits establishment of beer parlors in such hotels. A provision, however, is contained in the amendment clause which stipulates that brewers who have an interest in an hotel cannot derive gain to the firm from which the supply of beer or liquor is to be purchased.

Other modifications provide for reduction in the number of rooms in an hotel where a beer parlor is to be opened. The number is reduced from 40 to 24. The allowance tax on beer is to be reduced from 10 cents a gallon. Licenses to brew also are to be increased and minor changes proposed in the law enforcement clauses.

The amendment bill will be presented to the law amendments committee of the legislature at the next meeting.

CANADA MUST LOOK ALIVE TO HOLD ITS TRADE

Vancouver.—"The greatest danger to Canada is an uninformed and uneducated public," says a leading Canadian. "I urge you young men to equip yourselves to decide upon the great issues of nations before you."

Declared Hon. R. D. Bennett, addressing the Canadian Club.

"Choosing as his subject 'Business,' Mr. Bennett emphasized the necessity of Canada making a decision as to whether her strength, economically, was east with or without the British Empire."

Mr. Bennett, in opening his remarks, said that he might have said with some correctness, naturally, but what mattered most was how one could best serve his country.

Turning at once to his subject, the speaker said that most of the world's peaceful but highly competitive war now on throughout the world on the part of the great nations, and their trade. The United States has its empires everywhere. The European countries were contented by the fact that they were losing trade and are making up their minds that they must continue in some form of European competition if they were to hold their own in commerce.

"Therefore, there was a European United States if they would, and the American States of America. That would be the cause of Canada in this economic struggle."

"Canada has a great trade per capita of any country in the world," said Mr. Bennett. "But what shall the future be? We cannot stand still. Within us is a great power, the British Empire. With respect to the constitutional aspect, I shall not speak before."

"In fact, there is another place for that. The British Empire is producing everything necessary for its own consumption. It is a self-contained unit."

"Yet, with all these vast resources, the Empire is without economic organization of any kind. No effort is being made to develop the raw products of which Canada is the greatest repository. As a business proposition, we must decide whether our strength, economically, is east with or west of the British Empire. We have great competition for the right of the organization for economic strength within the Empire."

"The organization was to be affected, Mr. Bennett did not say. At the outset of his address he suggested that it would be through providing jobs, than political or in the nature of propaganda. He left it to the individual in the audience to give thought to the subject."

"We must decide within the next few years if we are to continue with the Empire, or if we are to break away with economic interests elsewhere," he said. "It is economic union with the British Empire or our coming to the South, he said."

Exchange Political Prisoners

Poland Released To Poland Detained

Warsaw.—Soviet Russia and Poland exchanged 38 political prisoners, held under various charges. Among those released by the Soviets were ten who had been sentenced to death.

Poland delivered nine persons, among them a noted agitator, Stanislaw, who returned 29 prisoners, among them two priests and six women.

At the same time the two countries exchanged a protocol which guaranteed the return to Poland of two more political prisoners.

Rescued Crew Of Air Mail Plane

London.—The captain of the British steamer, British Knight, has notified his London owners that he picked up the French mail airplane, N-H-54, on the Laccadive Reef and rescued the crew of six men.

The plane and crew will be landed at Gibraltar.

Recover Bodies From Submarine

Provincetown, Mass.—The bodies of three members of the crew of the S-4 were recovered by divers who entered the submarine which had been picked up. The bodies were found in the engine room of the submarine. They were fully recovered and it was decided to have them buried by drowning.

Would Honor Late Premier Officer

Winnipeg, Man.—Chas. Stewart, minister of the interior, is favorable to the naming of a mountain peak after the late Premier, John Oliver. According to a dispatch received here, he will recommend the proposal to the Geography Board of Canada.

Local and General

Dr. and Mrs. Freeze left for Calgary on Thursday evening train.

43. D. Hummon of Carmangy was a visitor at the O.E.S. meeting on Monday night.

The Ladies' Aid will meet at the home of Mrs. P. O. Somers on Thursday, January 19th.

Miss Edna McNaughton left recently for Whita, where she will teach until the summer holidays.

Mr. and Mrs. A. E. Shaw left recently for Kansas, where they will spend the remainder of the winter.

J. Roebuck has rented his farm to F. Saddle and will likely move into Champion for the summer.

He was booked in vaudeville for a weight lifting act, but he fell for a beautiful dumbbell! See "The Strong Man."

A number of social functions were held this week among the hostesses being Mrs. Ryan, Mrs. Hoskins, Mrs. Moffatt, Mrs. Latiff and Mrs. McLean.

Mrs. Cornell, who was the guest of Rev. and Mrs. S. H. Hunt during the holidays, returned to Irricana last week, where she will resume teaching.

Mr. and Mrs. D. S. Robinson wish to thank the kind friends and neighbors who showed such splendid kindness to her little daughter, Noreen, in her recent illness.

Walter Stein, of Calgary, is the new assistant at the "Champion Meat Market." He is an experienced hand and will undoubtedly make good in his new position.

Mrs. O. Harper has been in Carmangy for the past week taking care of her mother, Mrs. B. D. Hummon, who returned recently from the Galt hospital at Lethbridge.

Mrs. A. Stevenson and daughter, Helen, of Blackfalds, accompanied by Mrs. Lawton of the same place, are guests of the former's parents, Mr. and Mrs. G. A. Manhard.

Mr. and Mrs. J. Hagerman and Mrs. D. Clements, of Calgary, were in town over Monday night, the ladies attending the installation of officers of the Eastern Star.

For the past two weeks an epidemic of flu has been prevalent in this vicinity and many are still suffering from it. It certainly takes the joy out of life while it lasts.

The Eastern Star will give a dance on Valentine Day, Feb. 14th. A special effort is being made to make this event a memorable one and this date should be reserved by those who enjoy a real dance.

Since the chinook has practically destroyed the sleighing everyone is hoping it will complete the job of removing the snow. Should it make a clean sweep threshing would be a possibility of the near future.

A little wheat is being delivered these days mostly by sleighs, but many of the roads are impassable. C. H. Sutton opened up the road to his farm with a tractor and trucks are now busy hauling his grain.

Farmers were getting fairly well equipped with sleighs when the chinook came along and destroyed the sleighing. At present the roads are practically impassable for loads, either on sleighs or wagons.

The W. I. met at the Parsonage on Tuesday with a large attendance. The speaker for the afternoon was Mrs. Martin, constituency convener, of Vulcan. The new president, for 1928 is Mrs. F. Steeves; secretary, Mrs. D. Smith; treasurer, Mrs. W. Ulrich.

C. E. Anderson has purchased the Geo. H. Mark property at the east end of town and will move into the residence at an early date. While the exact figures are not available it is intimated the price was a handsome one.

An ice jam at the traffic bridge east of Carmangy has been quite an attraction for the past few days. An effort to blow the ice out with blasting powder on Wednesday failed to remove the jam. Preparations are being made to use dynamite to save the bridge.

The livestock, implements and household effects of the E. Zaig estate will be sold by public auction on Wednesday, Feb. 1st. The list is an imposing one and will undoubtedly draw a big crowd for its dispersal. Watch for posters.

Start the New Year Right—With The Chronicle

Better the Man with
His Eye to the Sky
than the Man with
His Ear to the Ground

ALL through its long, successful history, General Motors of Canada has had its eye to the horizon.

Listening not for what followed, but looking always toward the thing ahead.

And General Motors has seen many of its visions realized.

It has seen a great industry grow up in Canada to supply the Canadian family with a means of transportation to meet its needs and resources, to answer the desire for style, dependability, luxury.

It has seen, in the Canadian Fisher Body plants, the perpetuation of Canadian ideals of craftsmanship.

It has seen, in the General Motors Research laboratories, the development of countless advances and refinements on which much of modern motoring comfort depends.

It has seen, on the General Motors Proving Grounds, the proof of principles which are now accepted factors in automobile design and construction.

It has seen the triumph of co-operative purchasing and manufacturing methods with their resultant economies to be shared with the buyers of General Motors cars.

And the eyes of General Motors are still to the horizon . . . still seeking new ways to improve General Motors cars and to place the cars within reach of ever-widening circles of Canadian buyers.
